Overview

The Public Works Department, Construction Management Division, consists of a select group of architects, engineers, and construction professionals that direct the planning, design and construction process for new and large renovation projects for Broward County, excluding airport and port projects. This advanced full-time position serves as the lead supervisor in the management of construction of complex capital vertical projects and a variety of designs. This exciting and challenging position will assist the Division Director and Assistant Director in planning, assigning and reviewing the work of a professional staff of Project Managers. Strong communication skills as related to informing direct supervisors, County Administration, and elected officials are required. Candidates should possess extensive experience in the planning, programming, design, procurement, documenting and construction administration of projects as well as the oversight of multiple consulting professionals, contractors and others.

Experience/Preference:

- Five (5) years of extensive experience as a high-level project manager in government contract procurement, large-scale (\$15 million+) vertical construction projects, and experience in public sector construction project management
- Five (5) years of experience in accounting principles relative to project budgeting and project cost controls.
- Five (5) years of experience supervising and managing all phases of multiple vertical mid-scale construction projects concurrently.
- Five (5) years of experience with Building Information Modeling (BIM) and Virtual Design and Construction methodologies.
- Ideal candidate will have familiarity with the latest construction methods and technology including Building Information Modeling (BIM), document control programs, and scheduling programs.

Education:

- Requires a Bachelor's Degree in Architecture, Engineering, Construction Management, Urban Design, Master Planning, or closely related field from an accredited college or university with major coursework in architecture. Master's Degree preferred.
- Requires six (6) years in professional architectural or engineering work, including four (4) years of experience in project management and supervision of staff appropriate to the area of assignment or closely related experience.
- Current registration as a Registered Architect or Professional Engineer is required at time of application. Architects and Professional Engineers registered in jurisdictions outside of Florida will be considered upon demonstration of the candidate's ability to achieve reciprocal licensure in Florida at the time of hiring.
- Leadership in Energy and Environmental Design (LEED) Certification preferred.
- Project Management Professional (PMP) Certification.
- Crime Prevention Through Environmental Design (CPTED) certification and/or Emergency Management certification
- Licensed Interior Designer or NCIDQ certification
- Certified Master Planner.

Americans with Disabilities Act (ADA) and Veterans' Preference Notice Compliance:

Under Section 295.07, Florida Statutes, certain servicemembers and veterans, and the spouses and family members of such servicemembers and veterans, receive preference and priority, and certain servicemembers may be eligible to receive waivers for postsecondary educational requirements, in employment with Broward County and are encouraged to apply for the positions being filled.

County-wide Employee Responsibilities:

All Broward County employees must serve the public and fellow employees with honesty and integrity in full accord with the letter and spirit of Broward County's Employee Code of Ethics, gift, and conflict of interest policies.
